FOR IMMEDIATE RELEASE

Talla-Tech receives orders for Rugged Computers from the U.S. Marine Corps Valued at Approximately \$18.5M

--Important Industry News--

Tallahassee, Florida – 4 June 2007 - Tallahassee Technologies, Inc. (Talla-Tech) has received purchase orders from the United States Marine Corps (USMC) for Rugged Computers valued at approximately \$18.5M. The USMC has a requirement for a small handheld computer which provides situational awareness to the dismounted Marine and has chosen the Talla-Tech Rugged Personal Digital Assistant (RPDA-57) to meet that requirement. The RPDA-57 is the latest addition in a long line of Talla-Tech rugged computers. Talla-Tech along with its corporate parent, Tadiran Communications, Ltd., has supplied rugged computers to the USMC since 1998 in both mounted and dismounted configurations. The RPDA-57 is a rugged handheld computer based on both the Microsoft Windows CE and Microsoft Windows Mobile operating system. The RPDA-57 can be supplied in a variety of configurations including an embedded SAASM GPS, Taclink communications controller, embedded Iridium data transceiver, a 900 MHz transceiver and other modular options.
